
Covid-19 Hand Washing Protocol

In order to try and reduce the spreading of the coronavirus, we are actively promoting the use and importance of hand washing as a measure against the virus.

The children and staff will wash their hands:

- When they enter the building for the first time and leave the building.
- Before and after using the toilet
- Before and after eating food
- Before and after outdoor play.

The children and staff will use soap and warm water when washing their hands and dry them using paper towels that are thrown away after use.

Hand sanitiser is available for when they want to clean their hands at any other time.

The time for washing hands should be 20 seconds or the length of time it takes to sing 'Happy Birthday' twice.

All staff and children are expected to adhere to the protocol and if they have any questions please speak to the relevant member of staff who will be happy to discuss any concerns they may have.

Should parents and carers have any questions, please do not hesitate in speaking to the staff at the setting who will be happy to discuss any concerns.
